MR. E. G. SALTER: The report submitted by the Inspector on that particular occasion was too inadequate to take any disciplinary action by the Department. He had omitted to furnish suitable evidence which is one of the fundamental duties of an Inspector. This together with his unsatisfactory past record was taken into account and he was severely warned and his increment was withheld for one year.

MR. KOTTALIL P. ABRAHAM: May I know the distance which an Inspector has to travel for checking work?

MR. E. G. SALTER: 16 miles is the average jurisdiction of each individual inspector for checking work.
